Subject: Re: NUNA Presentation

Hi Trefon,

Thank you for your message. I would like to come to your meeting and I have been trying to work out my schedule for next week. It is still up in the air but I would like to talk to you. I will give you a call later today. I just tried to call but probably caught you at lunch. I am back in Seattle now but I am going to Anchorage next week. Thursday is booked and Friday I will probably be on a fly over visit of Pebble with Jane Lubchenco, Head of NOAA. I don't know the schedule yet and that is the complication. Talk to you later.

Rick Parkin

Subject: NUNA Presentation

NUNA will be holding a one day workshop in Anchorage on August 26th at 1pm. We anticipate that 10-15 NUNA representatives from the tribes in the Lake and Peninsula area of the Bristol Bay will be in attendance. One of the topics of the workshop will be the watershed assessment that your office is undertaking for the Kvichak and Nushagak Drainages.

You are invited to give a presentation on the watershed assessment process.(30 min). Many questions have been asked about the watershed study and your update will go a long ways in dispelling the misinformation that seems to follow controversial topics like the watershed assessment. Let us know if you are available that day. We spoke at the workshop and I was enlightened by your willingness to give NUNA an update (time permitting of course.) Thanks Rich
